

Memorandum

Date: June 17, 1997

To: Bay-Delta Advisory Council

From: Mike Madigan, Chair
Bay-Delta Advisory Council *M. D. Madigan*

Subject: Water Transfers Work Group

At the May 22, 1997 BDAC meeting, we announced the formation of a Water Transfers Work Group. I have appointed BDAC members Tib Belza and Roger Strelow to serve as co-chairs of the Group. Tib and Roger will bring important perspectives and good balance to the discussions. Other BDAC members who have asked to serve on the Work Group include Jack Foley, Tom Graff, David Guy, Alex Hildebrand, Richard Izmirian, Rosemary Kamei, Robert Meacher, Ann Notthoff, and Judith Redmond.

At the last BDAC meeting, Lester Snow distributed a memo describing his view of the role of water transfers in the CALFED Bay-Delta Program and the types of policy guidance that a BDAC Work Group might be able to provide. A copy of this memo is attached for your convenience.

The co-chairs will work with CALFED staff to arrange the first meeting of the Work Group. This meeting will likely be held in July. BDAC members serving on this Work Group will receive meeting packets automatically; if you have not asked to serve but you would like to receive agendas and meeting packets when they are distributed, please call the CALFED office.
